

Phlox 'Kung Fuchsia' PPAF

(Hybrid Phlox) A new hybrid Phlox with a color that's bright enough to give a karate kick to your senses. Very intense, bright fuchsia pink flowers totally cover the relatively short habit. As a hybrid, 'Kung Fuchsia' will bloom 2-3 weeks earlier than the standard Phlox paniculata varieties and is not bothered by disease such as mildew even in hot, humid summers. The perfect addition to any summer garden!

Height: 16-18in Spread: 14-16in Zone 4-8
